

WHEN GREAT-GRANDMOTHER was a bride, she wore a gown like this pre-Civil War dress modeled by Margaret McNeil. Modern bride Judith Romer, who became Mrs. William Nauman Saturday, looks over all the gowns to be modeled in the Pageant of Brides, before picking her own modern dress. The new Mrs. Nauman and Miss McNeil will be part of 20 models showing wedding styles in all eras from 1948 to 1959 at the Community Methodist Church on Wednesday. See story on Page 4.

Grade School Band Wins Third 'First' State Rating In Three Years

A first class rating for the third straight year has been won by the Antioch Grade School band in state competition at Joliet Saturday.

In addition to the official title, Forrest McAllister, senior judge, labeled the young musicians the "superior band of the two day contest." He noted also that in judging bands in 43 states, he has never heard a class D group play with such musicianship as the Antioch band.

THE BAND MEMBERS won 21 first places in the solo competition and three second places. In the ensemble competition, members won seven first places and four seconds.

Forty band parents accompanied the group and the Band Parent Assn. feted the group at a dinner after the competition. Graduating eighth graders got gift pins from the association to mark their contribution to the success of the band. Director George Olisar also received a pen and pencil set from the eighth graders.

A motorcycle escort led the Antioch procession through Joliet and they were picked up at Wauconda by the state police. At the Antioch village limits, local police escorted the triumphant band to the grade school.

Contact Lens Wearers Told of Faulty Lot Of Eye Medication

Contact lens wearers were notified Tuesday to stop using Barnes-Hind wetting solution and to take all the medication to their vision specialists at once.

According to Dr. Al Bucar, Antioch optometrist, a quantity of the solution made by the Barnes-Hind Co. has been found to be contaminated and could cause blindness if used too long. His laboratory notified him Tuesday.

It is known that some quantities of the solution are out in the Antioch area and MD's and OD's are contacting all their user patients, Dr. Bucar said. The solution is blue-green and is used only by contact lens wearers.

L.V. Cancer Drive Falling Short

Cancer fund collections are lagging in Lake Villa where little more than half the \$325 quota has been reached.

Mrs. Walter Baier and Mrs. G. F. Fabry, chairmen of the drive there, this week urged residents to make their contributions this last week of the drive.

At last report, only \$165 had been collected, the chairmen said.

Director Olisar praised the parents who accompanied the band on its trip and who have assisted in other ways. He credited parental interest to the success of the youthful bandsmen.

2 HS Students Chosen As Youths Of Yr.

Two outstanding students from Antioch High School were chosen from a field of 14 finalists and named "Youths of the Year" in ceremonies here Tuesday night at the Lakes Theatre.

The two are Robert Martin, basketball player last year on the Sequoit varsity and a student leader, and Sharon Dittman, active in school circles. Both are juniors.

BY VIRTUE OF winning the titles, the names of the two will be engraved on a trophy which will go on permanent display in the school's trophy case and names of winners will be added each year. A pin or certificate of recognition will be given the winners.

Character, scholarship, leadership and service were the categories considered in naming the pair for the award. Names of students eligible were screened by a Student Council committee composed of Elaine Christensen, Karen Van Patten and Martin and names then went to a faculty committee for final judging.

THE FINALISTS, besides the winners, were: Judy Maleck, Joe Etten, Bryan Cain, Lance Keisler, Norma Brown, Brian Elliott, Sonya Pickus, Janet Keisler, Jim Rule, Ione Cribb, Terry Plack and Dani Strattan.

Official awarding of the trophy will be made at the annual Honors Day assembly June 1.

Representing the High School at the Lakes Theatre ceremonies were Principal Albert Dittman and Porfi Picchi, a representative of the Illinois Youth Commission, gave the greetings of Governor Stratton. The theatre sponsored the award.

Personal Property Taxes Unit Topics

Lessons on personal property taxes will be topics of home bureau unit meetings in this area during May.

Mrs. Richard Wells and Mrs. Gerald Crichton from the Lake Region Unit at Antioch will be the instructors. They attended the local leader training school last week at Waukegan.

Says Civic League: HS Building Plan Good If Unit System In Mind

Specifies 2 Points 'For', 4 'Against'; Urges Vote

Building of a \$1,785,000 high school for the Antioch-Lake Villa area is good long-range planning if the area is going into a unit school system says the Lake County Civic League.

It issued a four-page report this week analyzing the issue which voters will decide in a special referendum election on May 9. The report specified four points which could be construed as "against" the plan but it in effect listed two compliments to the school board and the issue.

THE LEAGUE, through its executive secretary Bruce Trester, is a watchdog on public funds and usually makes recommendations on all school and municipal bonding issues in the county. At times it gives a "yes" or "no" vote on the issues but "attempts to furnish as much information as possible but without recommendation unless some question of poor financing or over-building makes a disapproval of the project obvious." Trester has been studying the issue for more than a month.

The League claimed that the district could save \$16,000 by using a revised debt-retirement schedule which would pay off the bonds in 15 years instead of the actual 16 it will take under the board's plan.

THE 16 YEAR issue could have been shortened a year by making maturity payments \$175,000 in the years 1971 through 1973 and \$125,000 in 1974 rather than using the already adopted schedule of \$125,000 for each year through 1974 and \$150,000 in 1975.

"We estimate that on a 3 1/2 percent interest rate, this could have meant tax savings of \$16,000. This is a prime example of getting the most for the tax dollars which the taxpayer could have had if the League's recommendations had been followed."

THE LEAGUE ALSO claimed that the school board has not given a true picture of the capacity of the present building. The report cited three differing reports of school capacity at 600 in a press account,

650 given to the League by the administration and Citizen's Advisory Council report projected to a 740 capacity. The league made its own survey and estimates and came up with a capacity figure of 776 pupil stations available at any one time.

Use of the Illinois School Bonding Service as advisor to the Citizen's Advisory Council was said to have created a possibility of "coloring" the recommendations for the school.

"The fact that the Illinois School Bonding Service, a private organization which stands to benefit from handling the amount of bonds sold, served as leaders in discussing the issue, also colors the planning result," the report said.

A FINAL POINT is that the bond issue is planned for a unit system which calls for long-range thinking, and that the size of the bond issue then is this result. By taking care of the long-range needs, a \$1,785,000 bond figure appears and is planned to be sold in a favorable bond sale in a tight money market.

However, the League noted that a point in favor of the issue seems to be the \$14 per square foot cost of the building which is "below the planned costs of other high school construction in the county."

Also noting the growth predicted for the Lake Villa-Lindenhurst areas, the League report said that "there is likelihood that in the long-run the area will need more than one central high school..." The report said that it seems Lindenhurst has been left out of enrollment projections, and the board may be crowded before it has estimated.

IN THE MAIN, the report recommended that the voters go to the polls on May 9 to decide the issue. While it did not criticize the board in its plan, nor praise it, the League did note that the public should recognize that "with public spending assuming the proportions of a crisis at all levels of government, the tax paying public should consider (continued on page 8)

To Begin Collections for Hospital

Individuals are so anxious to give money to the Countryside Hospital that fund collections will begin sometime next week, says Mrs. Edward Rundgren, Lake Villa, who has been appointed collection chairman by the hospital board.

"We find individuals are so enthusiastic that we must go ahead even without treasury department approval," she said this week. A meeting will be held Sunday in the Lake Villa School with representatives appointed from each area meeting to map the collection procedures.

BECAUSE APPROVAL of the hospital as a tax exempt agency has not been received, receipts must guarantee that the money will be refunded if that approval is not granted, she said. However, officials feel that treasury OK is almost automatic in the case of hospitals and it just takes time for the approval to come.

"I have had to turn down quite a bit of money offered by people who have even come to my door," Mrs. Rundgren said, "and so we felt official collections must begin soon."

THE HOSPITAL board held another community meeting last Sunday at Round Lake and delegates to the board from communities in the south were appointed. All areas are now represented as advisers to the board of directors.

Because there is so much going on, organizations have not shown the same enthusiastic response that individuals representing the same groups have shown, Mrs. Rundgren says. When they meet you on the street, the people are highly in favor of the hospital plan, but speaking for their organizations, they are not.

A site selection committee appointed by the hospital board was to meet with a Lake Villa landowner to discuss his property as a site for the hospital. In case terms can not be reached, the hospital board also is searching for other land suitable to the population and distance requirements of the area.

C of C 'Number Hunt' Sales Event Thursday

More than 1,000 persons will be lucky winners in a giant one-day "Number Hunt" conducted by members of the Antioch Chamber of Commerce Thursday. The hunt is for posted numbers in stores which will entitle the holder to buy quality merchandise for as little as 1 percent of its regular price.

The hunt is the unique spring promotion to get shoppers acquainted with merchants who belong to the Chamber of Commerce.

NUMBERS WERE assigned several areas in the Antioch trading zone and a 12-page shopping guide was sent to every resident in the selected area. Each shopper has a different number and that is the one which will entitle the holder to purchase goods at the low price.

Stores will be open during the event for 12 hours, from 9 a.m. to 9 p.m.

ONLY 3,500 of the specially numbered papers were sent out and some areas had to be missed says Ralph Gressens, chamber president. However the same type of event will be held again in the fall so that areas missed with this promotion will be included in the fall sale.

Special yellow signs in the windows of participating merchants, all Chamber of Commerce members, will designate that the store has a selection of numbers inside. There is no obligation to buy, of course, but at 1 percent of the original price, most are expected to take advantage of the bargains offered.

Ladies Night At Mon. C Of C Meet

It will be Ladies Night at the meeting of the Antioch Chamber of Commerce at Smart's Country House Monday.

A movie depicting the voyage of a small outboard motor boat across the Atlantic last summer will be

shown and merchants will discuss the results of the "Number Hunt" sales promotion event and make plans for a repeat performance in the fall.

Male members of the Chamber are invited to bring their wives to the dinner meeting.

James Madden Dies At 101, Native Of Area

One of the oldest residents of the area, 101-year-old James Madden of Spring Grove, died Wednesday, April 22 at the home of a daughter, Mrs. Charles Franklin.

Mr. Madden was born April 5, 1858, near Wilmet, in Randall Township, Wis., and had lived most of his life around the Wilmet and English Prairie area.

In 1896 he married Rose Orvis and they had six children. His wife preceded him in death as did a daughter, Mrs. Katherine Ramsey, in 1937. Surviving are sons and daughters, Mrs. Mary (Walter) Harms, Twin Lakes; James P., Spokane, Wash.; Thomas, Roscoe, Ill.; Sam, Burlington, Wis.; and Mrs. Margaret (Charles) Franklin, Milwaukee.

Mrs. Jensen, 97, Dies Sun. Here

Mrs. Margaret K. Jensen, 97, a resident of Antioch for 65 years, died early Sunday at her home at 324 Park Ave. after a lingering illness.

She was born Feb. 25, in Djoll, Denmark, and came to America in 1893. She moved to Antioch in 1894 and has lived here ever since.

Her husband, Niels Jensen, died March 18, 1922, and she has resided with her daughter, Ella Gertrude Jensen since. Another daughter, Mrs. Anna Marie Beck, Elmwood Park, also survives, as do two granddaughters and two great granddaughters.

Funeral services were held Wednesday at Strang Funeral Home, Antioch, with the Rev. Wallace Anderson of the Methodist Church officiating. Burial was in Hillside Cemetery.

Record Snows Cover All Traces Of Gene Prange, Missing 7 Months

Though snow measured 170 inches in the rugged Mission Range Mountains of Montana last winter, it is melting fast and by June 1 it is hoped searchers can begin again to look for traces of the missing Eugene Prange of Lake Villa.

The young student at the University of Montana disappeared last September while on an anthropology study tour and the only trace searchers could find was his dog Queen. Prange was described as a clean camper, so clean that search parties could not find a single trace of him.

LETTERS RECEIVED this month from the Missoula County Sheriff tell his parents, Mr. and Mrs. Herbert Prange, Rt. 2, Lake Villa, that the tedious search will be taken up again about June 1.

"All the resources of this office, and those of our allied Search and Rescue operations will make a thorough search of the locality in which he was reported missing," says William Walker, county sheriff.

Eugene Prange "Everything will be done to locate your son," he wrote Mrs. Prange. Cooperating in the search will be units of the U. S. Forest Service who have informed Mrs. Prange that they can be called in only by the sheriff.

SNOW STILL IS several feet deep in the Goat Mountain sector where Gene vanished that weekend. The area is so rugged that it takes several days to hike into the region—the only way to get there.

HERE'S AN IDEA of the rugged Mission Range Mountains near Missoula, Mont., where Eugene Prange is missing. He made the fateful trip into the mountains in September and the only trace found was his dog Queen. Deepest snows in 19 years now cover the area.

Search by helicopter is costly, at least \$70 per hour which covers expenses only, but the Johnson Flying Service of Missoula is willing to make a helicopter available when the search begins again. It is hoped Missoula county will pay for the entire search, for the mystery of Gene's disappearance is a puzzling question to residents.

HE WENT OUT on Sept. 13, a Saturday, to study habits of mountain goats. He took his dog Queen along and had two rifles. By Monday, Sept. 15, he had not reported back to the University of Montana and on Tuesday an extensive search was begun.

The first probe turned up the dog,

apparently very frightened and hungry, and Gene's car—but there were no clues to the whereabouts or activities of the missing youth.

Attempts were made to take the dog from where she was found near Lindberg Lake to the Crystal Lake area. It was thought she would lead the search parties to Gene who it was hoped was only injured. But the dog either refused or didn't know what to do. Her behavior added only a cloud to the mystery of what happened.

SHORTLY AFTER Gene went into the mountains, a violent storm with winds up to 110 miles per hour swept the area. It was first (continued on page 12)

Report Finds Flaws In H. School Planning — But Just A Few

The long-awaited survey of the proposed high school bond issue by the Lake County Civic League has been received this week and taxpayers may be happy to note that not a great deal of holes could be found in the issue.

The Civic League report on tax issues has been a sort of rule to go by in this county and though it basically is the work of one man, the penetrating analysis usually is sound. Though reports generally ignore climate of the times and the several non-monetary factors which go into each issue, one must admire the financial understanding.

Actually it is refreshing to know that the high school board did come up with a proposal in which it is possible to find flaws. It proves that the members are human, just like you, and are seeking to find a good long-range solution to a problem.

But besides the items pointed out by the Civic League report, ordinary citizens have found possible areas where an improvement could be made in the plan for the \$1.7 million plant.

Most of these suggestions have been built around an addition to the present building to "save" the people from the great expense of building an entirely new structure. It is admitted that this plan would cost less — a little less. And it would be only a matter of a few years before it would be necessary to go through it all again.

Be critical of every person who says this issue is not a good one — as critical as you are to everyone who says it is a good one.

One Man Ties Into The Problem

One of the "Men of the Year" awards for 1958 has been made to Sen. Harry F. Byrd of Virginia who seems to think inflation and government spending is a more serious threat to this country than one of the problems of his own state, integration.

This man has been a constant foe of reckless, useless and increasing waste of the tax dollar and at last has been recognized for his crusade.

It is right that this man should not go unheralded, but one man's efforts can never stem the tide of this program that is so easy to start, so hard to stop.

What is most alarming about the spending, Sen. Byrd says is that recent increases in Federal spending have not been for defense and foreign aid. It has been for domestic-civilian programs. Interest on Federal debt is not taking more than 11 cents of every tax dollar.

The government is now subsidizing business, industry, transportation, power, state, localities, individuals, etc. Some of these programs now getting Federal monetary aid are bottomless pits for Federal expenditures.

This vortex of spending must stop says everybody but who is to refuse a Federal grant if the money is available and a neighbor is getting his share? The alternative is not to refuse any government money if it is offered but to eliminate the laws which make it possible. Sen. Byrd and every congressman should know that the people have had enough of this nonsense and that now is the time to halt. Each person's voice must be heard.

"Our people must remember that the very foundation of our system rests upon the fact that people must support the government. It is not the purpose of government to support the people. The national interest must come ahead of private gain. So, to achieve our objectives, there must be sacrifice all down the line."

Here's a small voice in tribute to one man who realizes the problem that is basic to the government, the threat of Russia notwithstanding.

TWO LONELY RED soldiers walk their daily patrol across the Iron Curtain in Germany. This picture, made by Sgt. Robert Lubkeman of Antioch who is on patrol on the American sector of West Germany, shows the 10-meter plowed strip which marks the border in this section of Germany.

The German View

To Know Is To Like Americans, But be Wary of Commies

(Editor's Note: This is the second of two articles by Mrs. Annette Lubkeman, wife of Sgt. Robert Lubkeman of Antioch who is patrolling the border between East and West Germany. Through the eyes of an ordinary citizen who has lived among the Germans for more than a year, readers can get a view of what the German citizens are thinking.)

By Annette Lubkeman

Germans who know and associate with Americans like the Americans.

We live in a town called Hallstadt. It is small, about five kilometers (about 3.1 miles) from Bamberg, population 76,000. Many GI families rent apartments in German homes. You may be certain that our rent is more than twice as high as that paid by the Germans.

Roughly, the American dollar equals four Deutsche Marks and one mark is to a German what one dollar is to us. We have a two-room apartment for which we pay 100 DM a month. We have no hot running water and we pay our own electric bill. Furthermore, very few homes in this area have central heating. We heat with a little coal stove.

A German renting this same apartment would pay probably no more than 40 DM.

THE GI is a very good spender and the German people welcome the Americans for their economic worth.

Our landlady rents to us and to another couple who pay 200 DM for their apartment. Herr Begdam earns only 70 DM a week—so you can see that we are an important part of their livelihood.

ON THE OTHER hand, we have met Germans who seem to like us just because we are Americans.

Preceding the Lenten season, Germany has a season of festivities known as Fasching. The people keep up a fantastic pace of merry-making which has its climax on Shrove Tuesday. We were fortunate to be invited to two of these Fasching parties.

The first was a masken ball (mask ball). I dressed as a Bavarian man in lederhasen (leather shorts), shirt, and Bavarian hat and mask. Bob and I were the only Americans at this huge party and we felt strange at first.

However, as I waltzed, danced the polka, cha-cha-cha and rock and roll with young and old alike, I began to feel very much at home. In fact, I

became in great demand as a dancing partner. One man was telling me (he spoke English) that he liked Americans so much. He went on to say that he had been a prisoner of war in an American camp for 14 months—and he enjoyed himself. He said that he had a very good job as a truck driver and the food was delicious.

I FELT MORE at home when the judges awarded my partner and me third prize for our costumes.

But, the highlight of the party happened when the president of the organization sponsoring the affair walked up to Bob and me and started to make a speech in German. Our friend translated it for us. He said that it was wonderful to see Americans enjoying themselves so much with the Germans.

BOB AND I went home that night feeling as if we boosted the US up a half notch on the ladder of international relations.

Three nights later we attended another masked ball—this one on a larger scale. As the evening progressed, we almost felt the Germans were our best friends as they flocked around us "broasting" our good health. ("Broast" is the German toast.)

When I shop in the stores of Bamberg, I feel like a queen. Many of the stores in Chicago and Antioch should take a few lessons.

The shopkeepers are very anxious to please. They really don't have to try too hard because the quality of their merchandise is excellent. Most shopkeepers will escort their customers to the door—opening and closing it for customers and saying "Viele Danke" (many thanks).

MOST OF OUR neighbors are very friendly. When I walk my son in the kinderwaglin (baby carriage), I can be certain he will have an audience before we get home.

Last summer I was able to drive a mother and her child to the doctor's office. The little girl had fallen and cut her head on the flag-

Why Doesn't Antioch Support Countryside Hospital Association?

In the weeks gone by, I have tried to follow your reports on the activities and meetings of the Countryside Hospital Assn.

I remember in one of your reports that Antioch was conspicuous by its absence at one of the meetings. I for one thought I understood why, because I did not know about the meetings. I may have missed an announcement in the paper, but I don't think so.

Last week in your paper, the April 16th issue, I read about the meeting to be held at Oakland School on Sunday, April 19.

I attended this meeting and much to my surprise, I found I was the only one from the immediate Antioch post office area.

I would like to know, Why? I have talked with different people and they all agree that we need a hospital closer than Zion or Waukegan.

Some people may say we can always "go to Waukegan." They may be right, I don't know. I feel that we need a hospital closer to this area.

How many times has the Antioch

Rescue Squad, a wonderful organization, been out on a call and had to take somebody to Waukegan to the hospital and another call comes in and either the second or off-duty squad goes out or the second party has to wait until the Squad gets back? I know of one instance where a person's life may have been saved except for the above instance.

A closer hospital would save at least 10 or 15 minutes on each call the Rescue Squad gets to take someone to a hospital.

Why doesn't Antioch help support the Countryside Hospital Assn?

20 Models In 'Pageant of Brides' To Show Bridal Gowns To Present

It's easy to choose a theme that will have appeal to mothers and daughters. Just talk about brides.

And so that's the theme of the tribute to mother being given by the Community Methodist Church of Lake Villa next Wednesday at 7:30 p. m. A display of gowns worn by brides over the last hundred years will take the attention of the women.

MORE THAN 20 models will show the dresses from each era when styles and modes of living changed. And a modern bride, the former Judith Romer, who was married just last Saturday will be present to add a touch of completeness to the evening.

Music of each era will accompany the modeling—the same tunes that were popular when mothers and grandmothers of those attending were married.

Eight eras will be represented from the Civil War period, before (1848) and after (1878) to the turn of the century (1901). The period to 1910 is another era and World War I is a period all to itself. Others are the fabulous roaring 20's, the great depression, World War II, post-war period and the modern bride of 1959. Romance lived on in all those times, good and bad, and mothers and daughters attending will see how the tempo of the times was reflected in the dresses.

THE ERA OF THE modern bride will show a full dress procession including gowns worn by the mother of the bride, attendants and flower girls.

Speaking for the mothers will be Mrs. Warren Brown who will talk to the daughters. A response by Cherrie Flood as a daughter to a mother will follow.

Mrs. LeRoy Graham will be toastmistress and coordinator for the feature pageant of brides is Mrs. Gerald Robinson, wife of the pastor of the church.

Lombard Girl, William Anderson Wed on Weekend

Mr. and Mrs. Walter Joseph Auburn of Lombard have announced the marriage of their daughter, Corisande, to William Donald Anderson, son of Mr. and Mrs. W. J. Anderson of Lake Villa. The wedding took place on Saturday, April 25, at the First Congregational Church of Lombard. A reception for 175 persons was held after the ceremony in the church's Fellowship Hall.

The bride, a graduate of the University of Illinois, has taught high school at Panama City, Florida, for the past seven years. The bridegroom graduated from Highland Park High School and the University of Illinois and received his law degree from the University of Georgia. He is now a legal adviser at the First National Bank of Chicago. After their wedding trip, Mr. and Mrs. Anderson will be at home to friends at Castle Crest Drive, Waukegan.

PTA To Install Officers At Last Meet Wed.

Final meeting of the school year for the Antioch High School PTA will be held at 8 p. m. Wednesday, May 6, at the high school auditorium with President Wallace Anderson presiding.

Program for the evening will include music by the combined vocal and instrumental departments of the high school and the installation of officers for the coming year.

Mrs. Paul Messenbrink of Libertyville, president of the Lake County Council of the PTA, will install the following officers: John Romer, president; Vaughn Sherwin, first vice president; Mrs. Ethel Barker, second vice president; Mrs. Glenn McNeil, secretary, and Mrs. Albert Wiegart, treasurer.

Refreshments will be served following the meeting, in the cafeteria.

Spring Luncheon Monday Ends Year For Woman's Club

The final meeting of the year for the Antioch Woman's Club will be a Spring Luncheon at 12:30 p. m. Monday, May 4, at the Colony House, Trevor. There will be no guests.

Mrs. K. F. Deitrick, chairman of the hostess committee, will be assisted by Mrs. Joseph Patrovsky, Jr., Mrs. Ben Burke, Mrs. J. Ernest Brook, Mrs. Thomas Pechousek, Mrs. Fred Swanson, Mrs. Edmund Vos and Mrs. O. R. Kresse.

THE GREAT AUNT of Ann Shehorn wore this gown at her wedding in 1878 and it will be one of those modeled in the Pageant of Brides at the Community Methodist Church on Wednesday. This gown represents the close of the Civil War era.

REMEMBER SONGS like, "After the Ball is Over" and gowns like this worn at weddings? Then you're from the period ending in 1901. This wedding dress, modeled by Judith Zalbor, adds a touch of authenticity to the Parade of Brides drama at the Community Methodist Church, Lake Villa.

Residents End Clean-up Week In Lindenhurst On Saturday

**By Mrs. Helen Graves
Lindenhurst Correspondent**
Clean-up week ends in Lindenhurst on Saturday when residents who have been cleaning this week put their refuse in driveways to be collected.

Residents are reminded to clean up not only their own yards but to tidy up the vacant lots which are gathering places for entire neighborhoods.

A BAKE SALE held by the Ladies Auxiliary will be held Saturday, May 2 at 11 a. m. at Thor's Shell Station on Grand Ave.

The spring dance was a gala event last week with approximately 100 couples attending. Music by the Five Notes and vocalist Sam Perrone was appreciated.

Those attending expressed thanks to the dance committee for organizing and decorating and for conducting the event.

Closes Raided GL Resort After Finding 2 Slots

The closed sign went up on the Hilltop Resort on Grass Lake Rd. after an order signed by Emmett Moroney, county board chairman and liquor commissioner. Monday went into effect.

The tavern was raided on April 18 by a six-man team from the sheriff's office who seized two quarter slot machines and placed four persons under arrest.

THE CLOSURE will be in effect until May 19, Moroney said. The proprietor was charged with possession of gambling devices.

In its report of the raid, the sheriff noted that three women placed under arrest for disorderly conduct were brought into the area from another state and that many patrons were not from the immediate area.

Discuss Unstable Bosses at Hospital

What effect can an emotionally unstable boss have upon employees and their families?

Answers to this and related questions will be given Wednesday, May 6, at 8 p. m. at North Shore Hospital, Winnetka, in a discussion on "The Individual, the Family and the Boss."

Dr. Bertram Schaffner, a New York City Psychoanalyst and consultant in Mental Health for the United Nations will deliver this eighth in a series of nine talks on "Emotional Forces in the Family."

The talks, a public service of the hospital, are principally designed to acquaint medical, allied professional personnel and the clergy with the recognition, care and treatment of emotional illness.

A LARGE CROWD WATCHED rites Sunday of these new officers of the Antioch Moose Lodge. They are (from left): Clarence Jarvis, retiring governor; Lester Palmer, fellowship; Ray Horton, inner guard; Bert Coleman, pilgrim who was guest speaker; Bob Calloway, outer guard; A. H. Erickson, trustee; Herman Ehler, third district vice president; Gordon Wells, assistant sergeant at arms; Carl Schiesser, trustee; Walter Good, prelate. Front row: Harry Whalen, Ralph Antes, trustee; Arthur Anderson, junior governor; Robert Avery, governor; George Brocker, sergeant at arms; Leonard Case, treasurer and Ben Noble, installation officer and fellowship member.

Robert Avery Named New Governor of Moose Lodge

Robert Avery took over as governor of Antioch Moose Lodge Sunday in impressive ceremonies viewed by many members and guests. A complement of officers took office also.

Officers of the Women of the Moose assisted in the ceremony. They are May Palmer, Mildred Gilum, Emogene Case, Jan Verkest, Evelyn Erickson, and Helen Jarvis. Gladys Schroeder furnished music at the piano.

THE NEW OFFICERS and the outgoing officials heard kudos by Herman Ehler and Bert Coleman, pilgrims of the Moose who were guest speakers.

The list of officers are: Arthur Anderson, junior governor; Walter Good, prelate; Clarence Jarvis, past governor; Allen Erickson, trustee; Ralph Antes, trustee; Leonard Case, treasurer; George Brocker, sergeant-at-arms; Gordon Wells, assistant sergeant-at-arms; Ray Horton, inner

guard and Robert Calloway, outer guard.

A pot luck dinner was served after the installation.

Gov. Stratton Makes Budget Recommendations

Governor Stratton's budget took the legislative spotlight last week, including his recommendation that \$327½ million be set aside for state aid to grade and high schools. The per pupil level of state support would be raised from the present \$200 to \$250, the largest increase in the state's history.

Other increases were outlined for the Welfare department's operation of mental hospitals and new facilities. He also urged the legislature to approve two separate bond issues totaling \$270 million for needed construction at mental hospitals and universities.

The \$2,436,549,299 budget included a boost of \$296 million to cover the increased spending in welfare and education. The governor also proposed raising the sales tax by one-half cent to raise money for these increases. Also, suggested by the governor was a tightening of unfair loopholes in the existing sales tax; exploring possibilities of raising more revenue from liquor and tobacco taxes; and new pay scale grants for state workers.

Governor Stratton cut nearly \$313 million in requests from state agencies as part of "a determination to hold the line for the taxpayer. Included in the budget was an appropriation request for \$2,646,000 to build a new state museum building. Now housed on a single floor of the Centennial building, the Museum is visited by 500,000 persons annually. Many of the items cannot be shown now because of lack of space.

The budget message was favorably received, except for the increase in the sales tax. Democrats differed as to where the 106 million additional dollars for education should come from. Many Democrats favor increasing

the corporation taxes which Republican members said would drive industry away from Illinois.

Republican Whip William Pollack pointed out that the increase in sales tax would work no hardship on the general public since it would be at the same point, 3 per cent, that it was from 1933 to 1945. Senator Peters of St. Joseph, chairman of the Budgetary Commission, pointed out that proposals for increasing corporation taxes would probably be taken to the Supreme Court, thereby tying up the needed revenue.

Award Contracts For Repair Of 5 Area Roads

Highway repair contracts totaling \$12,776.52 for two roads in Antioch Township have been awarded by the Board of Supervisors this week.

Roads to be repaired are Beach Grove Rd. south of Antioch and Wilmot Rd. west of the village.

Bituminous finish and a crushed stone and gravel finish for parts of Beach Grove Rd. will be handled by the Libertyville Asphalt Products Co. which won a contract for \$2,801.93. Carl Barthel of Antioch won a contract for \$2,321.25 to furnish crushed stone and gravel.

FOR THE WILMOT Rd., Barthel won a contract of \$2,088.87 for improvement and the Libertyville firm was awarded a contract to furnish bituminous materials.

Three Lake Villa Township roads also will receive work this summer as three firms split the three contracts awarded.

GELDEN RD. will receive a \$1,718.76 bituminous coating by Skokie Valley Asphalt Co. Grub Hill Rd. in the western part of the township will get a bituminous construction by Libertyville Asphalt Products Co., and So. Cedar Lake Rd. will also receive a bituminous

Bill Coming Up to Extend Harness Race Betting Days

By Rep. Paul Simon

Two legislators who are friends of mine have introduced what I believe to be one of the worst bills so far this session—and there is every likelihood the bill will pass.

It is House Bill 884 and extends the time when you can go to the tracks and place your bets on the harness races from its present limitation of 90 days between March 1 and November 15 to an unlimited number of days between March 1 and November 30. This changes the number of races possible from its present 90 to 230.

THAT MAY NOT strike you as being particularly bad. The sponsors of the bill will also point out that this will mean additional revenue for the state.

But this is money which the state will be getting at a high price!

Right now the most powerful lobby in the State of Illinois is the race track lobby. By extending their operation this just increases their authority and power.

THIS BILL WILL give added power to the same group which was able to secure a tax reduction in 1955, the same day your sales tax was increased by 50 per cent; this bill will give added power to the same group which passed the special legislation authorizing subsidies of up to \$1 million for the breeding of race horses in Illinois at the same time our mentally retarded are being given inadequate attention and some of our schools are not receiving sufficient funds.

How can this type of thing happen? The responsibility rests squarely on both parties since both parties have been involved in the passage of this type of legislation. Governor Stratton is directly responsible since he signed the bills into law and since he let it be known to his party membership that he favored them. But the Democrats must share the blame also since there were enough independent Republicans opposed to this type of thing to stop it had the Democrats opposed it as a party.

THE RACE TRACK legislation which has passed is a credit to neither party.

And unless there is a storm of protest from the "people back home," this latest legislation extending legalized gambling in the state will be put through by the same coalition.

There are other things wrong with it in addition to the fact that it strengthens an already too powerful group.

There's a track in my home county, Madison County, and around that track is an area where our county law enforcement officials have had a great deal of trouble with prostitution, professional gambling, and almost every crime in the book. Extend the racing season and you increase the problems of law enforcement in my county.

THERE ARE A great many fine citizens who enjoy making a wager at a track, but there are elements who cannot be classified as fine citizens who also are attracted by the race track. I don't want to do

anything to encourage this latter group.

Finally, some of the people who are interested in racing in Illinois are people with connections which are not good.

When the Fairmount track put in cigarette machines from a firm with underworld connections, I protested. At first I got nowhere, but finally after enough letter-writing the machines were taken out. But the question which has never been answered was how they managed to get in.

If the State of Illinois is determined to be of unusual assistance to some special business, let's make it the grocery business, or the dairy business, or some group which is contributing something to our society.

House Bill 884 will help those who least deserve our help.

21 Scouts Go On Troop 92 Camp-out

Antioch's troop 92 had a camp-out last week-end at Gander Mountain with 21 scouts attending.

The boys worked on camp improvements and advancement Saturday morning and hiked to the top of Gander Mountain in the afternoon. Saturday night four scouts and three adult leaders were initiated into the troop.

Church services were held Sunday morning and at two o'clock there was a wiener roast for the families of the scouts.

McClory Urges Citizens Write Their Views to Legislators Soon

By Senator Robert McClory

In case you don't like "what's going on in Springfield," now is the time to write, wire, or phone your State Senator and State Representatives. These legislators are not infallible, nor are they psychic. If you, the citizen and voter, have information, suggestions, questions, or advice on any pending legislation you owe it to yourself—and to your legislative representatives—to communicate with them.

It has been your State Senator's experience that the average citizen, who is not coerced by a lobby or a pressure group, rarely lets his views be known.

IN THE COURSE of the present session, which ends June 30, hundreds of letters and cards will be received by the members of the General Assembly from public employees who will be urging increased pension benefits, improved working conditions and other changes which may be the subject of legislation.

Organized labor and associations of businessmen, farmers and educators will see to it that their members pack the mailboxes at the State Capitol with unequivocal requests to vote for—or against—particular bills affecting their interests.

But, unorganized labor, small businessmen, and just plain citizens—not affiliated with any group maintaining a lobby in Springfield—probably will not be heard from.

YOU MAY ASK: "Well, how do I

write to my State Senator and Representatives?" The answer is to write to them "In care of the State House, Springfield." And, when you write, explain briefly and logically your position. The information or suggestion you give may not have come previously to the legislator's attention; or your straightforward statement may convince them to follow your advice.

Stereotyped, printed and mimeographed postcards and letters don't carry much weight, in general. One thoughtful, personal letter is worth a thousand cards demanding a legislator to "Vote Yes" or "Vote No" on a pending bill.

Members of the legislature are like other people. They strive to do their best as representatives of the people. They can be helped in their efforts by sound advice from "back home."

ADDRESS LETTERS to the writer, as follows: State Senator Robert McClory, State House, Springfield, Illinois.

Your representatives, Rep. Robert E. Coulson, Rep. W. J. Murphy, Rep. Jack Baird, may be reached at the same address.

Have you "something on your mind" concerning taxes, schools, highways, trailers, schools or hospitals for the mentally ill? If so, now is the time to unburden yourself. After the General Assembly adjourns on June 30, it will be too late.

Invite All Mothers, Daughters to LV Banquet on May 6

All mothers and daughters are invited to the Mothers' Day Banquet presented by the WSCS of the Community Church of Lake Villa on May 6 at 6:30 p.m.

Besides a dinner in the church dining hall, a "Pageant of Brides," depicting dresses worn by brides from 1800 to date, will be a feature part of the program. Music from the eras will provide atmosphere for the modeling.

RESERVATIONS ARE needed, says Mrs. Amzetta Graham, publicity chairman.

In charge of other phases of the planning are Mrs. Melvin Colhart, tickets; Mrs. Alvin Peg, programs; Mrs. Vern Blust, decorations; Mrs. James Connell, kitchen. Mrs. Thos. Mellin is president of the WSCS, sponsor of the event.

Emmons Grade School Registration Set For May 5th and 7th

Registration of all children residing in School District No. 33 who plan to enter first grade at Emmons Grade School next fall is arranged for May 5 and May 7, according to Principal Donald J. Blake.

It is necessary that parents or guardians bring the child's birth certificate with them at the time of registration. Children to be entered in first grade must be six years of age on or before Dec. 1.

According to Mr. Blake it is imperative that a reasonably accurate first grade enrollment picture be obtained at this time in order to anticipate the needs of the school in regards to books and supplies for the fall term.

If it is not possible to bring a child for registration on the specified dates, Mr. Blake said the school will accept first grade registrations any time before summer vacation.

The Antioch News and Lakes Theatre invite Vernon Dunn, Rt. 4, Box 142, Antioch, and one to attend Sunday, Monday, or Tuesday, May 3, 4, or 5, show at the Lakes Theatre.

Cause me to hear Thy loving kindness in the morning; for in Thee do I trust: cause me to know the way wherein I should walk, for I lift up my soul unto Thee. — (Psalm 143:8).

Those who begin each day by thanking God for His love and His blessings and for a new opportunity to serve Him by loving and helping others, will find joy and strength abundant; obedient to His will, they are guided into righteousness.

Immediate Action on HS Space Problems Urged

Editor's Note: The following is the second in a series of questions and answers concerning the proposed building program for Antioch High School. These are questions that have been called to the attention of the Board of Education.

Q: Why must we act immediately?

A: Because we are seriously overcrowded today, and the children born during the "postwar baby boom" aren't even of high school age yet! The first class of "postwar babies" will enter high school in the fall of 1960, and the present facilities cannot hold them. Even before any construction approved today could be completed, it is quite likely that we will be forced to operate on a modified shift basis. This building program is not for tomorrow's children; it is needed for the children who are here today.

Q: Have the Citizens Advisory Council and the Board of Education studied the problem thoroughly?

A: Yes. Both groups have been studying the complex problem for over a year and one-half. Northwestern University and the State Department of Public Instruction were also called in to obtain their opinions on what should be done. It is felt that every possibility has been investigated thoroughly. The proposed solution is not a snap judgment, but the considered best opinion of a representative group of school district's citizens.

Q: What will be the tax raise for the average home owner?

A: A typical residence property in Antioch might have a valuation of

\$8,000; this would mean a tax raise of \$14.00 per year. THE AVERAGE HOME OWNER WOULD PAY LESS THAN FOUR CENTS A DAY FOR THIS BUILDING PROGRAM. (All figures used in these computations are based on the average annual tax rate increase of 17½ cents per \$100 equalized assessed valuation.)

Saving for the future is very important and where you save is also important. That's why State Bank of Antioch stresses saving however small, and at a safe place, such as the Antioch Bank. More people save here than at any other bank in this area.

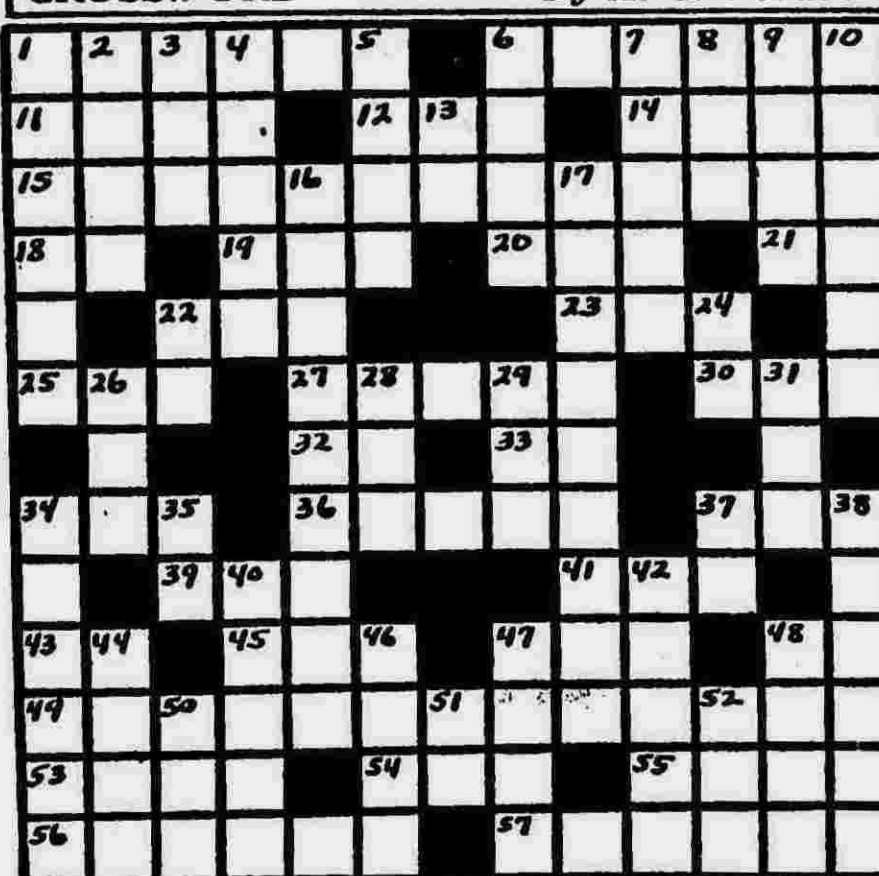

Moving, with fully insured packing, is the specialty of Service Afloat, newest moving company in this area. For local and long distance moving, the Service Afloat number is Justice 7-0211.

Where else but the Grass Lake Lumber Co. for a complete selection of lumber and building supplies? The best nature and manufacturers can produce are at Grass Lake Lumber Co.

We'll See More Rockets, Missiles, Local Lions Hear

Jets, missiles and rockets are playing an ever increasing role in modern living, says Peter Reich, aviation editor of the Chicago American.

Reich, in addressing the Antioch Lions Club Monday night at their regular dinner meeting, at Smart's Country House, covered air travel from the old piston driven types to the latest ballistic missiles.

Supplementing his talk with colored slides, Reich kept his audience in their seats for over an hour.

"THE B47 IS presently the mainstay of the Strategic Air Command," said Reich. With a range of 3000 miles and speed up to 650 mph, the B47 makes a very versatile aircraft. It is gradually being replaced by the longer range B52 which can fly between 6 and 8,000 miles.

He pointed out that the idea that missiles are making museum pieces of the B52 and the B47 is just "not true."

THE LATEST thing on the board right now, said Reich, is the B58 Hustler. Most information about the Hustler is still classified but Reich said it was estimated to fly at a speed of 1,500 mph or more.

The fastest aircraft known to be operational at the present time is the Air Force F104 Starfighter. Traveling at a speed of over 1,400 mph and armed with the sidewinder air to air missile it makes "quite a weapon," Reich said.

Turning from jets to missiles, Reich sighted the Thor, Jupiter and the Atlas saying "these truly bring us to the edge of space."

THE ATLAS, REICH said, attains a speed of approximately 15,000 mph and has a range of about 6,000 miles. In reporting a launching of an Atlas he said that the earth shakes for miles around when it is fired.

Going from jets to rockets, the editor reported on the Vanguard and the pioneer projects. The Vanguard,

Reich said, is admittedly small but it is estimated that it will remain in orbit for over 600 years. This is something that the Russians as yet have not done.

Pioneer II or the Juno as it is sometimes called, is the only thing the Americans have sent up that did not come down or go into orbit, Reich said.

THE LIONS MEMBERS were shown slides of the new X-15, the first rocket ship. This is "truly a rocket with wings," Reich said and was purposely designed to carry a man into space.

Reich ended his talk with a slide of the Wright brothers' first plane in flight, traveling at 40 mph. This was just 50 years ago, he noted.

Following his presentation Reich was asked about the race between the US and Russia and if it were true that we are far behind them.

He reported that the indications are that this is false. The main reason for this opinion, Reich said, is that Russia is producing the Bison bomber, the counterpart of our B52, in large quantities.

"If they were as far along with their missile program as they would have us believe, they would not be doing this," Reich said.

GARDEN CLUB OFFICERS after their installation Monday are: (from left), Mrs. Howard Frizzell, secretary; Mrs. Norvin Stoffel, first vice president; Mrs. Lloyd Leable, treasurer; Mrs. Roy T. Hyre, second vice president and Mrs. Dudley Kennedy, president.

Display Prize Pickard Box

'Preview of Spring', How To Arrange Flowers, Planned By Garden Club

A "Preview of Spring," a Garden Club demonstration and lecture will be given May 19 in Wesley Hall of the Antioch Methodist Church.

Mrs. Burger I. L. Burger will give the demonstration of flower arranging for the new spring buds. Tea will be served.

THE GARDEN CLUB also is considering sponsorship of a group of youngsters interested in landscaping and gardening, offering them help and encouragement. Parents or children interested in such a project should contact Mrs. Albert Wiegart who suggested the plan at the Monday meeting of the Garden Club at Millburn.

At the meeting, new officers for the year were installed. Mrs. Dudley Kennedy is new president; Mrs. Norvin Stoffel, first vice president; Mrs. Roy Hyre, second vice president; Mrs. Howard Frizzell, secretary, and Mrs. Lloyd Leable, treasurer. The meeting was held at the home of Mrs. Ray Boller with Mrs. Walter Laurell as co-hostess.

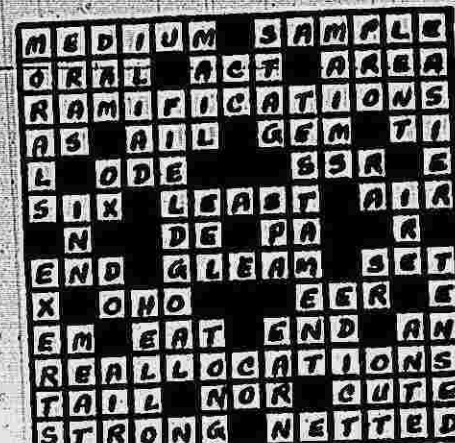

GARDEN CLUBBERS attending heard a talk by Mrs. George Martin of Cary who stressed the consideration of continuous bloom in landscaping and the correlation of ever-

greens with deciduous trees and shrubs.

"The decoration of yards and grounds should supplement the interior of our homes," she advised.

"Never undertake a gardening project that will overtax your strength, time available or financial ability. Start one small corner at a time," she said.

There are three things to be considered before you take up gardening as a hobby, she said. Does it fill your need; does it satisfy your likes; and are you sincerely interested in the hobby?

Name 6 Finalists In Apple Queen Contest

Six girls were selected Sunday afternoon to meet for the Blossom Queen title in the fifth annual Chicago Apple Blossom Festival May 10 at Bell's Mossley Hill Orchards, U. S. 12 at Lake Zurich.

The finalists are Shari Gruits, Jefferson Park, Chicago; Barbara Maurus, Morton Grove; Barbara May, Elgin; Marilee Motis, Skokie; Kay Oman, Barrington, and Suzanne Press, Barrington.

A contestant from Antioch News did not finish among the finalists. She was Wanda Schlunz, 19, of Lake Villa.

whether they can afford the increase in the tax load which this proposal will create.

"Since education of the community's youth plays an important role in our manner of living, it is most important that each and every voter... express his vote, Saturday, May 9."

THE BIGGEST QUESTION posed by the League in its report is that of the unit system. While it notes that the entire building seems to have been planned for eventual unit system school structure, and that it may be most economical for such a building if this is the case; the League notes that "the district might never adopt the unit system." The latter part was underlined by Secretary Trester.

It said that the district's stumbling block appears to be the 5 per cent debt limitation which is written into the Illinois Constitution. "Thus, when a group of districts band together into one district, they do not have the same bonding power or ability to meet the needs that they had as individual districts."

However, the report ends there and does not discuss the apparent operational, educational, and other financial advantages of a unit system.

DEATH NOTICES

Mrs. Alma H. Nelson

Mrs. Alma H. Nelson, 77, of Camp Lake, Wis., died Wednesday, April 22, at Camp Lake, Wis., after a one year illness.

She was born Sept. 28, 1881, in Chicago, moved to Duluth, Minn., in 1900 and then to Chicago for three years. She has been a resident of Camp Lake since 1938.

She was preceded in death by her husband, Wilton Westland Nelson, in 1935.

Survivors include her two sons, Wilton, Jr., of Madison, and Donald D., of Melrose Park, Ill.; two daughters, Mrs. Madeline Denzin of Adams, Wis., and Mrs. Elizabeth L. Klein of Bristol; five grandchildren and five great grandchildren.

Services were held Saturday, April 25, at the Strang Funeral Home, Antioch, with the Rev. Lawrence Williams of the Silver Lake Baptist Church officiating. Burial was in Salem Mound Cemetery.

Before NATO

a grab that throttled freedom in Eastern Europe... threatened it everywhere else

Since NATO not an inch of territory lost

FREEDOM is something you take for granted—until you lose it. Freedom to live and work and worship as you please.

But ask the people in Hungary about freedom! Ask them in East Germany! Then remember that ten years ago the menace that was blotting out freedom in country after country in Europe was creeping westwards—in your direction.

The formation of NATO, the North Atlantic Treaty Organization, in 1949 put a barrier of defense between you and the growing Soviet bloc. To the

Reds and other would-be aggressors it said: "An attack on any one of our 15 nations will be an attack upon all." And since NATO has become a fact not one inch of territory in the Atlantic area has been lost.

NATO today is much more than the most powerful military peacetime alliance in history. It is a living shield of free men working together to bring prosperity into the lives of us all. NATO deserves your support in the new challenges that face it today; it is your best bet against another World War.

Write for free booklet to:
NATO INFORMATION, Box 88, New York 21, N. Y.

WHAT NATO HAS ACHIEVED

1. Stopped Soviet aggression in Western Europe by building up military forces under unified command.
2. Spread the cost of defense against Communism. NATO has enabled us to combine our vital resources and share our obligations with 14 allies.
3. Secure behind the NATO shield, we and 450 million other free men in the Atlantic community are progressing toward greater political, economic and social well-being.

NATO 10 YEARS ON GUARD AGAINST ANOTHER WORLD WAR

Into Second Round

Several Top Kegglers Fall in News' Bowl-off

Several top bowlers were eliminated in the first round of the Antioch News Individual Handicap Bowling Tournament but the tournament will go ahead with the third round drawings being held next Sunday.

Missing in second round play which was being held this week were such names as Joe Sterbenz, Jr., Lou Tomason, Don Coombs, Chuck Moran and Vern Baker, all carrying top averages in league play.

SOME OF THE real good bowlers still in the play are Marv Shepard, who has the leading average of the season at Antioch Bowl, and Earl Barnes who has had several good games this year.

Mike Badame gave a beautiful exhibition in defeating Tracy Hill with 246-233 and 234 for an actual total of 713. His actual score was second high of the season at the lanes, says Jack Sampayo, director of the tournament.

Two special prizes of \$5 each were given to Don Coombs and Roger Strattan for shooting high actual games but placing out of the money. Coombs, who broke 700 just a few weeks ago and was last year's winner of the big men's tournament here, had a 222 game. Strattan came up with a 221 effort but neither could put three such games together to take their matches.

SECOND ROUND pairings, some of which have already been rolled, are listed below. Bowlers must have their matches rolled by Saturday night in order for winners to be entered in the drawings for the third round. In case any games are forfeited, a name will be drawn from the alternate list to be paired in the next round.

Bowlers are vying for a \$100 first prize and a beautiful trophy in this first annual News' tournament. Losers in the first round just completed got nothing for their efforts, but from now until the end of play about May 20, every loser gets back an amount of money in prizes which should cover his expenses.

SECOND ROUND pairings are: John Gniot vs. Charles Erbach; H. R. Shank vs. Mike Badame; Jocko Koppen vs. Ken Kirchmeyer; Richard Seyfarth vs. Cliff Vanderwerker; LeRoy Ellis vs. Marty Padgen; Emmet Mount vs. Art Fortmann; Jack Lawrence vs. Elroy Anderson; Norm James vs. Richard Stroner; Joe Sterbenz, Sr. vs. Robert Banasack; Larry Dee vs. Bill Johnson; Matthew Wiecek vs. Marv Shepard; Ted Palmer vs. Hank Pape; Ben Noble vs. Norm Edwards; H. Shank, Sr. vs. Art Bywell; Frank Huss vs. Bill Carney; and Lou Rudolph vs. Lou Rausch.

Russell Lasco vs. "Snapper" Gerretsen; Bob Steiskal vs. Erich Lubkeman; Stan Lucas vs. Harold Petersen; Donald Richards vs. Irv Walsh; C. L. Anderson vs. Ed Slavik; Ken Nicpon vs. Ed Carney; Al Dettmering vs. Ed Kania; Don Shank vs. Frank Heiselmann and Phil Vos vs. Ken Blumenschein.

Also "Doc" Ripley vs. John Angel-off; Robert Monton vs. Rudolph Dornier; Earl Barnes vs. Tom Atwood; Chuck Jueber vs. Emil Wesa; Marv Lefco vs. Ed Stanich; George Schoenleben vs. Don Wheeler; and George Lichter vs. Tony Stanich.

Cinder Aces Break More School Marks

A vast improvement was shown by Antioch track squad at the Palatine Relays last week-end when the cindermen scored 12½ points and broke several school records again. The team could net only a single point at last year's meet.

Chris Davis hurled the discus a magnificent 154' 2" for a first place and bettered his own school mark which had stood for only a week since he broke it before. That mark also is fifth best in the state now and is best in Lake county.

DAVIS ALSO pitched the shot 48' ¼" for a third spot and which also broke his own school mark.

Dick Prange went 10' 6" on the pole vault event to tie for third place and better his old mark of 10' also set this year.

Bill Dressel did his best mile of the year at 4:46.4 for a third place finish. However, in spite of his bettering time, Coach Robert Walther says he is off his pace of last year.

Next meeting of the Antioch tracksters is Thursday night in a triangular with Salem and Elmhurst at 8 p. m. for the field events and 6:30 p. m. for the running portion. Saturday the crew goes to Elmhurst Park Relays and Walther feels his boys could finish among the first five teams.

Salem Up-ends 2 in Triangular

It was all Salem Central in the second meet of the season for the Falcons last week as the trackmen overran Waterford and Big Foot 84½-38½-27.

Salem took all but four first places and two men finished in the scoring in all but five meets. However, Coach Bob Brice's squad could not sweep any event. They came closest in the broad jump, taking the three top slots.

A NEW TRACK record was set in the 880 relays at 1:40.9 in which only Central and Waterford competed.

The all home meet season for the Falcons continues this week with Wednesday's dual meet with St. Mary's of Burlington; meeting Antioch's fine squad in a night meet on Thursday and pointing to the conference meet May 13 at which Salem will be host.

Stars to District Track Competition

Five stellar cinder aces of the Antioch track squad have been selected to try for first places in the district track meet at Evanston on May 9. Qualifiers will go to Champaign for the state meet on May 16. The quintet is Vince Nauseda, Dick Prange, Ken Truelson, Bill Dressell and Chris Davis.

Tracksters Fail To Top Records But Win 2 Meets

Trackmen running under the Sequoit banner picked up their second and third meet titles last week in outlasting Warren and Round Lake in a triangular meet and tripping Round Lake at home in a dual meet.

Antioch picked up seven firsts in amassing a 69 2/3 score in the triangular win. Round Lake got 55 points including six firsts in the meet while Warren could get only 20 1/3 points, all from second, third and fourth places.

THE TRIANGULAR was the first in three meets in which Antioch did not break any school records. Ken Truelson who has performed in excellence in the frosh-soph events, was promoted to the varsity where he captured second in the 220 in both meets, coming behind Reinhofer both times.

The Frosh-Soph could not equal Warren's yearlings in the three-way meet, coming in a poor second with 36 points to the Blue Devils' 63. Round Lake was third with 13.

In the dual meet, the young Sequoits fared better than the varsity in sweeping all firsts, except the 440 as they outlasted the Panthers 86-18. **The Varsity Scores:**

News of Lakesports

ALL ALONE AS HE finishes far ahead of the pack is Antioch's Bill Dressell who took the mile in 4:48.3 ahead of all the runners Round Lake could muster. He took the other long-distance event, the 880, in 2:08.2. Dressell will be one of five Sequoits in the district meet next week at Evanston.

Kids To Race Friday In Grade S. Track Meet

Kids of the area are getting the kinks out for the second running of the Grade School Invitational Track Meet Friday at 4:30 at the Antioch Township High School field.

The 350-yard run will be held this year, not as previously reported that it would be dropped, Coach Robert Walther said. He is director of the meet and will be carefully looking over the prospects from the seventh and eighth grades for possible spots on his Sequoit varsity in the next few years.

ALLENDALE SCHOOL of Lake Villa swept the first meet last year and is expected to be strong again this year. Antioch and Channel Lake were the only other schools to place among the finishers last year.

Schools sending representatives will be Allendale, Antioch, Channel Lake, St. Peter's, Lake Villa, Millburn, Newport, Hickory, Grass Lake, Emmons and Prince of Peace.

Sequoits Drop 2nd Tilt To Fenton

Antioch came back well from a previous drubbing by Fenton to lose by only 12-5 last Thursday on the Bensenville diamond. The previous loss here to the same team was by 25-10.

In spite of the Fenton team getting 12 hits, lefty Dave Wiegel looked his best in pitching the entire six frames. The game was played better defensively with Antioch slashing its error total from an average 6 per game to only two.

HOWEVER, RUSS COTE, first string right fielder sprained his ankle in the fifth inning and will be out of action until next week.

Only extra base blow was a double by Chip Eberman.

Rain Cancels Diamond Slate

Rain washed out all three games scheduled in the Northwest Suburban Conference baseball slate on Tuesday and forced a jam-packed week of baseball for the Antioch crew.

Wednesday the Sequoits were at Grant to make up a previously rained out contest; Tuesday's scheduled tilt with Warren will be made up Thursday afternoon here and on Friday Elmhurst will be here for another conference game.

Next Tuesday's schedule has the locals meeting Round Lake on the Panther diamond. Round Lake is the only team Antioch has bested this year.

Salem Power Bats Beat Antioch In Opener by 10-7

Antioch put the stops to power hitting of Salem's Falcons last week in the first baseball game between the two squads, but it was too late and the Sequoits took a 10-7 loss.

Pitcher Sig Nielsen decided the Falcons had hit too freely in the first three frames in scoring nine runs and so he tightened up to allow only two hits and a single run in the last three innings.

FOR SALEM, Gary Doerflinger was superb in allowing only six hits and striking out four. However, he was caught in Antioch's barrage in the sixth inning and needed relief from Dave Willems.

The real story of the game was in the power of Salem in collecting 18 total bases to Antioch's seven. For Salem, Willems and Erickson got triples while Remus and Doerflinger got doubles.

Antioch may have gotten something going in the sixth when behind by three runs, and with two out and two on, Coach Larry Leon tried a double steal but lost when catcher Fred Lentz picked off the runner going into second to end the threat.

The box score:

You Know a Rose by Another Name

A rose is a rose is a... strawberry... is a mountain ash??

Gertrude Stein might have disagreed. But any member of the garden set can tell you that the strawberry and the mountain ash are among some 2,000 species of trees, shrubs and herbs that comprise the rose family.

Now that spring has started green thumbs itching, the most celebrated member of the family—called the "Queen of Flowers"—will be getting royal treatment in gardens throughout the country. And with good reason, The World Book Encyclopedia reports that roses account for more than 50 per cent of the value of all cut flowers sold in the United States.

THE POPULARITY of the rose is further verified by the fact that four states—Georgia, Iowa, New York, and North Dakota—and the district of Columbia have adopted it as their state flower.

The rose has even crept into our language. Life is a "bed of roses" for the man who's doing well for himself. And ever since the Greeks defeated the Persian King Xerxes in 479 B. C., supposedly after planning the battle secretly in a bower of roses, "sub rosa" has been used to describe anything hush-hush.

BOTH SAINTS AND sinners have claimed the rose for their own.

Hindu mythology relates that one of the wives of Vishnu—the preserver of the world, in the Indian religion—was found in a rose. Turks believe the rose originated from the perspiration of Mohammed. While the Christmas rose is said to have first sprung up at the feet of a shepherd's daughter who had no gift to present to the Christ Child.

On the other hand, Cleopatra is said to have covered the floor of her palace with roses a foot and a half deep when she entertained Mark Antony.

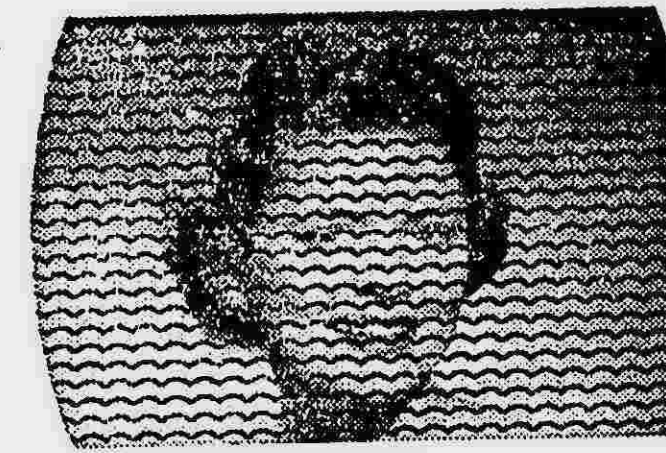

And Eve reportedly chose a white rosebud to take with her when she was banished from the Garden of Eden.

Opposition to State Taxes Growing Says Senator

By Sen. Robert McClory

Opposition to increases in state taxes is mounting as the Illinois General Assembly enters the second half of the legislative session.

Taxpayer alertness and awareness of the high cost of government services is highly desirable. If, in addition, public expenditures are given some intelligent study, the public benefits can be great and the assistance to the members of the legislature can be substantial.

However, it is the writer's opinion that all too often in recent years governmental expenses have been held down at the local and state levels, only to find the federal government taking over local functions at far greater expense to the complaining taxpayer.

EXAMPLES OF federal interference include federal appropriations for municipal improvements, such as water and sewer systems, local hospitals and other essentially local needs. The constant demand for federal aid to education is further evidence of this trend, which should raise the greatest taxpayer apprehension.

At Springfield, demands are frequently made, and sometimes recognized, to finance local roads, bridges, parks and other improvements which appear to be of purely local concern.

The ever-mounting appropriations to the common school fund indicate that the greater part of local school expenses may soon be covered by appropriations from Springfield, instead of in the traditional manner of supporting local public education locally. The trek to Springfield for school funds parallels the growing opposition to property taxes, the principal local support of schools and all other local government functions.

WITH THE FEDERAL tax bill, in most cases, ten times—or more—that of the local tax statement, it is well to compute the local tax outlay and decide where to direct principal opposition to tax increases. Governor Stratton has been an important influence in retarding a tremendous program of federal aid to education by asserting that Illinois is capable of taking care of its own educational needs. If more Illinois citizens would express them-

selves in this way, federal expenditures and resulting federal taxes could be held down.

Similarly, if some of the opposition to local taxes (which are entirely spent locally) could be re-directed toward Springfield, the state's appropriations for supporting local schools could be kept in line. Unfortunately, it seems easier to get funds from the federal government than from the state government. In turn, it seems easier to get the state to spend money than it is to get funds from the more thrifty local public officials.

THE DILEMMA of the taxpayer, which—of course—includes all of us, is of primary concern to the governor and his cabinet, and to members of the General Assembly. The governor's budget message will be delivered soon, and he has given assurances that the most rigid economy will be practiced. That sentiment could be re-echoed by most of the legislators in Springfield. The dilemma is the greater because—if the state does not do an adequate job—another function of government may soon be transferred to Washington, at many times the cost to the taxpayer.

School for School Board Members Unique Plan of NCHS Teacher

School board members, especially new ones, will be going back to school in the fall to bone up on all things a good school board member should know.

That's the plan being formulated now by John Hawes of North Chicago High School. His school for school board members of all Lake County will cover such subjects as finance, school law, operation of the plant and advance planning. A staff of experts from all over Northern Illinois will teach the subjects.

THE SCHOOL PLAN is called unique by the Chicago School Boards Assn. and by the county superintendent of schools in Lake County. Backing the project is the administration of North Chicago

High School. There is no like program that they know of and the only thing that approaches it is the literature sent out by the School Boards Assn.

Hawes, a teacher at the school, has been working on such a project on both sides of the fence—on high school faculties and on school boards. He was a member of the board of education at Worth, Ill., before coming to North Chicago.

THE SESSIONS will be over a six week period, once a week. There is planned to be a combined lecture and question-answer session at each meeting with the expert in each field outlining the workable points of each subject, then opening the remainder of the time to a discussion of student's questions.

At present Hawes is finding dates of school board meetings in the county and has inquired of every board of education. He will select a day of the week when most members could attend and then will schedule his instructors. The full curriculum and faculty will be announced probably before school is out this spring.

FINANCING THE school will be individual tuition paid by the boards or the individuals themselves.

"The first school has to be the best

New Golf Course Superintendent For George Diamond Club

Appointment of Robert Paul Drolet as golf course superintendent of the George Diamond Country Club, Highway 59 and Grass Lake Road, has been announced by George Diamond, founder and owner of the club.

Drolet comes to his new post from the Mt. Prospect Country Club, where he has served as golf course superintendent since 1956. Previous to that from 1954 to 1956 he worked as course superintendent at the Chevy Chase Country Club, Wheeling, Ill. He is a graduate of Loyola University, Chicago, and the University of Wisconsin. From the latter school he received an M. A. degree in agricultural science.

As a golf course superintendent, Drolet will be responsible for all landscaping, maintenance and improvements on the 6,400-yard, 18-hole course. Formerly the Chain O' Lakes public fee course, the George Diamond Country Club this year begins its first full season as a private club.

Local Teenager Is Magazine Reporter

"Dig," the national magazine edited and published exclusively for teenagers, this week announced the appointment of George Bosnick, 17, son of Mr. and Mrs. George Bosnick, of Loon Lake, Antioch, as an official campus editor and local reporter.

George is among the first of a select group of teenage reporters, photographers and artists who are now being chosen to represent "Dig" and its sister publication, "Modern Teen," in every community in the United States.

Rummage may be left at Wesley Hall.

one," Hawes says to insure its successful application and continuance. In the first one also it is planned to have some long-term school board members instead of an entire student body of beginners.

It is hoped that the first session will have about 30 members including especially the newly elected board members.

Gas Nearer For 41,500 Ill. Patrons

The Federal Power Commission has given its final approval to a project which it is hoped will permit about 41,500 more Northern Illinois Gas Co. customers to heat their homes with natural gas.

The commission authorized Northern Natural Gas Co. (Omaha) to construct necessary facilities to deliver 50 million cubic feet of natural gas daily to NI-Gas near East Dubuque, Ill. NI-Gas must build a 140-mile pipeline costing \$12,500,000 to bring this gas into its present system near Des Plaines.

Marvin Chandler, president of NI-Gas, said the company still must receive Illinois Commerce Commission permission to build this pipeline. However, he stated he had received assurance from George R. Perrine, chairman of the ICC, that the commission would consider NI-Gas' pending application promptly, probably next week. Chandler also reported that the large diameter pipe required has been ordered. Construction can be started early this summer and completed by next winter.

stone in the garden. How grateful they were. They repaid the favor by presenting me with a huge box of strawberries that were the size of plums.

A few weeks later the man next door used our car to drive his wife to the hospital when she was in labor. I visited her the next day, and we've been friendly ever since. They, too, gave me a box of strawberries. Perhaps they thought we don't have them in the US. Anyway, I appreciated their thoughtfulness.

NOW ON THE other hand, there are those who are not so friendly. When I walk to the backerel or grocery store, people sometimes stare and turn their heads as I walk by. Their rejection of foreigners is even more apparent when I drive down the street. Sometimes they will not move out of the path of the car.

As I was returning from Coburg to Hallstadt one Sunday afternoon, some rural-area children made vulgar signs at me as I drove by. That was not the first or last time that that has happened. And, I can recall being called "American swine" by young rowdies in the town of Coburg.

While some welcome the Americans, others do indeed reject them, but I believe that the occupation is a great necessity to prevent the spread of communism.

IT IS A VERY great credit to the West that democracy is existing and thriving in a once enemy country. The Germans have been fighting to keep West Berlin and West Germany democratic since the Russian blockade of the capital in 1948.

As Berlin is now in the "time-light," there has been more and more said about it than about West Germany in recent months.

The Communist Party received only 2 per cent of the votes in the recent elections in West Berlin. This was not enough to afford them representation on the city council. The minimum amount necessary is 5 per cent.

Each year 200,000 skilled workers leave East Berlin for West Germany. The communists do not like this, of course.

Very often we read of the defection of East Germans but I have never heard of a West German escaping to the East.

AN ARTICLE from the army newspaper Stars and Stripes of April 7 tells how a family of 10 escaped in a truck across the iron curtain.

The father, Fritz Graefe and his wife and children ages 2 to 13, came across the border unharmed in a hair-raising flight.

The farmer drove his truck through a barbed-wire barricade at a point covered by machine-gun emplacements. He said that his only hope of getting away rested on the fact that he still had a permit to drive in border areas. He had been collecting information for months in order to map out his best chances of making the break.

As he drove closer and closer to the border, the "death zone," an East German's people's policeman returned his smile and wave. Then, he said, he saw the barbed wire and huge stones that mark the border, stepped on the gas and just plowed through. The truck tore up two of the stones that mark the border and the hand brake of the vehicle was damaged.

East German guards sounded the alarm only after he was on West German soil.

However, his troubles weren't over for at the point where he crossed, there was no road and he didn't know where to find one. His luck—and his truck—held because he was able to go at a high rate of speed on a cross-country ride of about a mile, following the hand signals of a West German customs man who saw him come across.

His only crime was having been convicted of "slandering the state" and it appeared his work permit was about to be withdrawn.

Our German friends have relatives who live in the East Zone. They report that food is very scarce and that life is very hard.

However there are also communistic leanings in the West Zone.

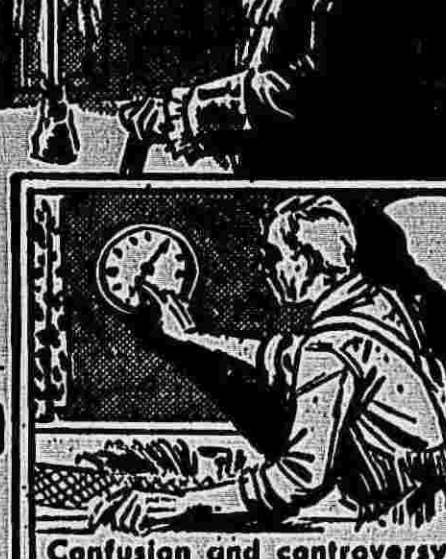

The border towns of Kronach and Coburg are half communist. I cannot say these statistics are correct

Daylight Savings? — It's A Dilemma

Ben Franklin is famous for his inventive genius; one of his least-known ideas is Daylight Savings. While Minister to France, he suggested that shops open and close an hour earlier to save lighting costs.

Both World Wars were responsible for the resurgence of Daylight Savings. President Wilson signed the first plan into law in 1918. A year later it was repealed and shelved nationally until World War II when Franklin Roosevelt restored it and called it "War Time."

Confusion and controversy have always surrounded Daylight Savings. Remember to set your clock an hour ahead on the last Sunday night in April. Most city dwellers welcome the extra hour of recreational daylight it allows. But it means greater effort getting milk to market for farmers.

One problem for housewives—town or country—has been lighting during this not-too-bright, not-too-dim part of the day. A new light control, called Luxtrol, solves the problem; allows for just the right adjustment.

LV PTA Plans Fun Fair Sat.

The Lake Villa School P.T.A. is holding a Fun Fair May 2 at the school gym, from 1 to 9 p.m. There will be a variety of booths including dart game, fish toss, bake sale, cake walk, fortune telling, white elephant etc.

but they are an indication.

My deductions are that the people are sitting on the side of a frying pan. If anything drastic should happen and the communist borders were advanced farther west, these people could say, "look, we were communist all the time."

I don't think their proneness to communism is due to a belief that it is the best form of state. I think they are prone because man's desire to survive is the strongest innate drive. They know that the democracies tolerate communists in their midst but the communist states do not allow champions of democracy among them.

THESE TWO BORDER towns are primarily protestant and most of Germany is strict, strict Catholic. I do not think the Protestants are as closely tied to their churches as are the Catholics. And I would list this as another reason for the large number of communists who live there.

In our town, the people are very anti-communist. Most of the people have very little and I do not think they would like to give that little bit to the state.

In this area farmers plow with cows and it is not uncommon to see a horse and a cow hitched together. The women work in the fields along with the men. In fact, theirs is the job of spreading the manure while the man sits in the wagon.

But the farmers love their little tracts of land even though the work is so hard and their farming methods are antiquated. Almost every home has a vegetable garden.

2 Local Mothers At UI on Campus Mothers' Weekend

Two mothers from Antioch will be guests of their sons when they attend Campus Mother's Day weekend, May 1-2 at the University of Illinois.

Events of the weekend include the spring musical, "Oklahoma"; crowning of the May Queen; scholastic and military honors ceremonies; meeting of the Mother's Association; Terrapin water show; Shi-Ai sorority singing contest; and the University Theatre production, "The Matchmakers."

IN ADDITION to all-campus activities, the fraternities will present programs of serenades, social hours, and other group activities to show the mothers student life at the university. Fifty-seven social fraternities maintain chapters at Illinois, the fraternity capital of the world.

Comping to the campus from the Antioch area are Mrs. Helen Herman, Rte. 4, whose son, Al, is a member of Alpha Delta Phi fraternity, and Mrs. James W. McMillen, Parkway Ave., whose son, James, is a member of Sigma Pi fraternity.

In the spring, Peabody Adenhausen's thoughts would turn to love — and that leads to roamin'! He was an independent character so he roamed on a scooter.

However, the scooter made it rather difficult when he found a lavish Frigline. Everything usually went smooth until she would suggest he buy her a scooter, among other things. Then he would scoot down to the Lake Villa Trust and Savings Bank.

Ready to pull out his vast savings, he would say, "But here I have security." And that would end another story about Peabody. He was right. He had security and it was within scooting distance.

Record Snows Cover Prange Traces...

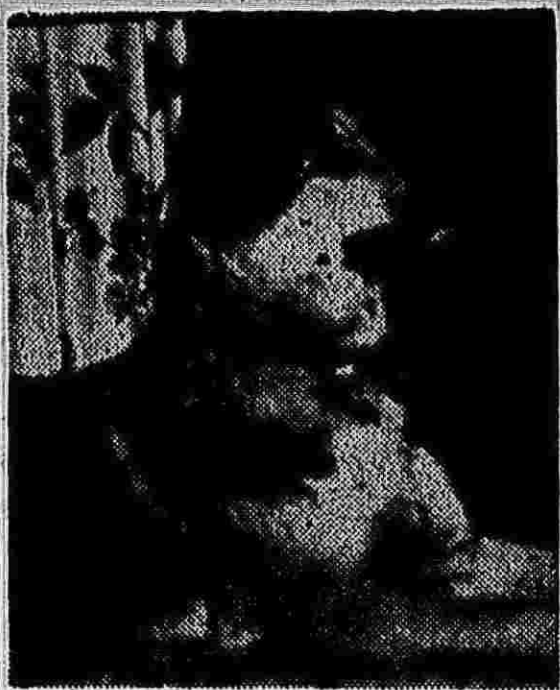

(continued from page 1)
thought that he might have been injured in the storm. But as the search went into its second week, search parties feared he had met death for even a good camper, uninjured, would have a hard time surviving in the cold which at that time was below zero at the great mountain heights.

Now all hope is gone and officials feel that even the chances of finding his body are slim. It has been the experience of seasoned searchers that finding the remains of missing persons in the mountain is only accomplished by accidental stumbling upon the site.

WHAT WILL MAKE this summer's search even more difficult is the 19-year record snow and water content of that snow this winter. Reports made this month show that north of Gene's destination at Hell's Roaring Creek Pass in the Upper Mission Mountains, snow depth was 141 inches and water content 60 inches. This is 25 inches more of snow and 11 inches more water than last year.

South of the Goat Mountain region on the North Fork of the Jocko River, snows of 145 inches were measured and water content was 62 inches. This is 39 more inches of snow and 16 more inches of water than at the same period last year. In addition, it is still snowing in that region and while officials tell Mrs. Prange that they hope to be able to look again about June 1, they can't be sure all the snow, which may cover clues, will be gone until August.

MEANWHILE, IN Antioch plans are being readied for the memorial to Gene which will be made sometime this summer. Jim Horton,

QUEEN, PRANGE'S dog may know what happened to her master but through fear perhaps, she could not lead searchers to the spot where young Prange apparently died.

scoutmaster of Troop 92, will place several items of Gene's personal camping gear in the Scout House on North Main St. and dedicate a short service to him.

Horton describes Gene as one of the finest scouts and campers ever in his association with Boy Scouts. He was a true nature lover and constantly studied it. His camping habits were so clean and he was so careful that he seldom had to be supervised. These latter points may have been his undoing, Horton believes, for had he been even a little sloppy, ground parties might have been able to find at least a single clue to his disappearance.

LV Firemen Give Blood For Young Heart Patient

By Mrs. Fred Bartlett
Lake Villa Correspondent

Little Darlene Weber, two-year-old daughter of Mr. and Mrs. Al Weber, is scheduled to undergo an arterial heart opening operation on May 5, at the Presbyterian St. Luke hospital in Chicago.

Members of the Lake Villa Fire Dept. are donating blood for the little girl. They are: Leonard Armstrong, Erwin Barnstable, Sr., Lester Hamlin, Kaurin Karolus, Clifford McCarthy, Ralph Nader, Harry Pavel, Neil Reidel and Fred Telz.

These three men are social members of the Fire Dept. and are also blood-donors: Clarence Bach, Henry Reidel, and George Shaddick. The Weber family live on Route 59 at Petite Lake.

Bruce and Brian Ladewig spent the week-end visiting Mr. and Mrs. Elsworth Ladewig of Zion.

Business and You:

Auto Insurance Rates Jump, Cause: Bigger Jury Awards

By William D. Bien

The chances are that your next automobile insurance policy will cost you more than the last one. And the one after that may be even more expensive.

You'll grumble and you'll howl about the pain in your pocket book. You may even suspect collusion between those rascally insurance companies that keep asking for rate hikes and your insurance commissioner who grants them.

But I'll bet you've never stopped to wonder why the rates keep going up.

It's a simple law of economics. The companies are losing money. If they lose enough money, they go out of business.

And if that should ever happen, consider the situation. Could you pay an accident claim today?

AUTO LIABILITY CLAIMS payments are being pushed higher and higher by juries giving ever bigger awards. Costs of fixing damaged cars are rising steadily. Hospital and medical expenses for injured motorists are going up, too.

One insurer — the American Fore Group — paid almost \$14,000,000 more in automobile insurance claims last year than it collected in premiums.

Continental Casualty Company last year had its first underwriting loss in 22 years — and the blame could be fixed directly on its auto policies.

In fact, practically every company writing automobile insurance had losses on that coverage last year. Without their portfolio returns, according to one informed executive, "many of the casualty companies would be broke today."

But insurance is essential; the public won't let the companies withdraw from the business. So there's only one thing to do — charge enough to at least break even.

That involves ever higher rates — and one State insurance commissioner who has been criticized by some newspapers for granting hefty increases is Florida's Edwin Larson, a big man with the eager-to-please personality of a St. Bernard.

Typically, Larson doesn't blame the editors who jump him. "If any criticism is due," he says, "it belongs in the State Insurance Department for failing to provide a considerable amount of supporting data and statistics about the increases to prevent a number of misconceptions."

He's probably right. The figures are impressive.

IN SOME STATES, an alarming number of insurance companies actually have gone bankrupt and been unable to pay claims. As a result, people in those states have lost millions of dollars in premiums that became worthless.

It could happen to you.

But more likely it won't if your state has an insurance commissioner whose attitude parallels Larson's. He says, "Such a condition has never existed in Florida, and it never will during my administration if it is humanly possible to prevent. That is why the law specifically says rates must not be inadequate — purely as a matter of public protection."

In the majority of states, insurance commissioners must grant increases to companies that prove they are neither unreasonable nor inadequate nor discriminatory.

In other words, rates are not set on the basis of a mere request. In the final analysis, drivers make their own arithmetic. If claim costs and accident frequency statistics are higher in one area than another, costs of the coverage inevitably must be higher. It's as simple as that.

There is one way to reduce automobile insurance costs — but it does not seem to be catching on.

What's the way . . . ? DRIVE SAFELY.

Get The Most From Charcoal Fires

Come summer, life centers around a charcoal fire. But barbecues and picnics have something extra when the fire's right. Make sure you use enough charcoal to last for all the cooking.

Before putting meats on to cook, make sure charcoal is reduced to glowing coals with a brush of white ash on top. Remember, this usually takes 30 minutes to an hour.

Sometimes meat fat "charges" the coals to produce flames that can ruin a meal. When this happens, dip a whisk broom in water, brush it lightly over the coals. Danger's gone and cooking goes on!

Special easy-to-light charcoal in clean, attractive paper bags can be picked up at your favorite retail store. The bags are convenient to handle and available in all sizes.

OLLIE LUNDELL, manager of the Jewel Food Store at 426 Lake Street, Antioch, congratulates Bryan E. Cain, left, on receiving a Jewel Scholarship Award worth \$6,000. Bryan is a part-timer in the Antioch Jewel.

Cain Receives \$6,000 Jewel Scholarship

Bryan E. Cain, son of Mr. and Mrs. Milburn C. Cain, of 672 North Main, Antioch, was awarded a Jewel Scholarship valued at \$6,000 at a dinner meeting Wednesday in Chicago.

The scholarship award provides for \$1,500 each year. To be eligible for the scholarship, Bryan had to work an average of 15 hours per week in a Jewel Food Store throughout his senior year. He was the winner of one of 10 major scholarship awards in competition with 313 other part time Jewels throughout the Chicago metropolitan area.

AT ANTIOCH High School, Bryan is senior class president. He has earned his music letter and pin, having served as president of the chorus, and playing first cornet in the band. Bryan is a member of the Modern Music Masters. He was president of the Radio Club, and previously treasurer for two years. He has earned letters in basketball and track. He was business manager of the School Annual and a member of the National Honor Society.

Bryan plans to enter the Massachusetts Institute of Technology in the fall. He expects to major in electrical engineering.

Zone Board OKs Gas Request Tho Planners Nix It

By Jim Jankowiak

FOX LAKE HILLS Correspondent
On April 25 the Lake County Zoning Board held a hearing on whether to rezone a lot on the corner of Grand and Monaville for use as a commercial property. A gas station was to be erected on the site. The board approved the application even though the county planning board disapproved the proposal. It stated that there is already sufficient land in the locality zoned for commercial purposes so that a rezoning is not necessary at the present time.

Many residents in the area were against this proposal, claiming that there are already enough service stations in the immediate locality.

MRS. TOM DYSON, president of the Women's Auxiliary, reports that the club is going to hold election of officers at their monthly meeting on May 6. A nominating committee has already met and selected some nominees, but their names have been withheld in order to make a little surprise for the members. Nominations will also be accepted from the floor so that all will have a voice in the affair.

The Auxiliary now has a permanent meeting place. The Rev. Vincent Fish of Holy Family Church on Lehmann Blvd. is letting the ladies use the church hall for their activities.

THE FOX LAKE HILLS Sports Club has announced that the voting on the by-laws will be held at the next monthly meeting, Thursday night, 7:30 p. m., May 7, at the home of President Tom Dyson. The by-laws committee, headed by chairman Bob Anderson, met, and along with help from the club officers, worked out a set of rules and regulations which should meet with the approval of the members.

Some important items included in the proposed set of rules are: 50 cents per month dues, an initiation fee of \$2, and possibly a controversial clause by which the club can

Pep Club Awards Will Be Given

By Barbara Stokes

Forty-eight girls of the Pep Club will receive awards this year. To receive awards, they must attend the meetings of the club and also be present at the games.

For the Pep Club, the year ended after basketball season. During the year, Miss Frantz, the club sponsor, and the officers (Sandy Barnstable, president; Georgeanne Latham, vice-president; Pat Teml, secretary; and Pat Cheterbok, treasurer) worked very hard in the organization and running of the club. The members cheered the team on through victories and losses, they tried to show good sportsmanship and most of all, school spirit.

THE CLUB introduced the wearing of the pep sweaters which were purchased this year. This is the first time the club has had any type of uniform. In the future, they plan to get skirts so the uniform will be complete.

First-year awards will be given to Bonnie Reed, Jan Duha, Cheryl Galati, Mary Lou Geist, Kay Knigge, Jane Lassen, Peggy McNeil, Lori Pedersen, Carole Plotzke, Judy Rosquist, Judy Vejvoda, Pat Teml, Edna Beattie, Kathy Hogan, Marge Reckers, Chris Banedt, and Sherry Davis.

Those receiving second-year awards will be Joyce Blumenschein, Jill Anderson, Penny Camphausen, Dee Stillson, Joan Wagner, Georgeanne Latham, Pat Cheterbok, and June Dressel.

Third-year awards will be given to Carolyn Irvin and fourth-year awards to Sandy Barnstable and Janet Keisler.

Student Honored Tuesday Evening

By Dan Strattan

Presentation of the Student of the Year Award was held at the Lakes Theatre here on Tuesday. One girl and one boy from Antioch Township High School were named outstanding for the award.

THE STUDENTS were nominated by the teachers and Student Council members on their scholarship, leadership, citizenship and service.

Albert Dittman, principal of A. T. H. S., Murrill Cunningham, mayor of Antioch, and a representative of the governor attended this presentation.

Richard Myers, manager of the Lakes Theatre, sponsored the event.

Under the Teepee

Lee Osmond was surprised when she walked into the senior class slumber party at Arlene Rozek's and found out it was a shower for her. Like all slumber parties, no one got any sleep. Lee fared best of all with some real nice gifts.

The girls from G.A.A. attended a play day at Grant Saturday. Each school was asked to submit a skit. Antioch put on "The Three Little Bears." Ask Mary Lou Geist how it turned out.

Sharon Dittman, Terry Ptack, and Mr. Brown attended the State Student Council Convention at the Sherman Hotel in Chicago last week. They left on Thursday and returned Saturday.

"Spring Fever Festival," the sophomore class dance turned out to be a success. Georgeanne Latham and Wes Merryman placed first in the dance contest.

The Antioch Band and Chorus took part in the Music Festival at Round Lake Monday night. They practiced Sunday and Monday in the afternoon to prepare for it.

Marie Jasien has been elected vice-president of Section 21 of the F.H.A.

Student Council elections are May 7. Let's have a good turnout.

There are more students on the honor roll this six weeks than there were last six weeks. Spring fever hasn't gotten everyone.

We're still wondering what happened in chemistry while Mr. Kirkham was away. They really cooked up something.

FORE! The senior girls have had golf in P. E. for the last couple of weeks. There have been several signs of relief that it is finally over.

The American History classes were lucky enough to have a full week of movies on World War II. The movies were enjoyed by all, but the test that followed didn't please many.

Paul Reichard Winner At Industrial Arts Meet

By Lynne Cheatham

Projects made by Russ Lasco, Todd Eckert, David Heath, Paul Reichard, Jim Bletsch, Ron Mack, Dan Seyfarth, and Denny Young were submitted to the Industrial Arts Round-Up. This Round-Up was held at Illinois State Normal University on Saturday, April 25. Its purpose was to try to stimulate boys to do better work in industrial arts and also to acquaint the public with the work being done by boys throughout the state.

PAUL REICHARD won first prize on his house circuit panel. The other boys will receive a certificate of merit for outstanding projects.

These projects will be on exhibit in the display window very soon.

"As American as apple pie" is a common phrase. But the apple came to America as an immigrant, along with the early settlers.

Students Join Massed Band, Choir Monday

By Sue Romer

In the spring, a music student's fancy turns to thoughts of Conference Music Festival.

Every year during the spring, the music students from all high schools in our conference join in presenting a massed band and chorus concert. Band directors from each school send two or three musicians from each section of the band while the entire chorus is allowed to participate.

THIS YEAR THE festival was held at Round Lake High School with the following schools taking part: Antioch, Grant, Grayslake, Libertyville, Warren, Wauconda, Round Lake, and Elmhurst.

On Sunday afternoon, the students had their first rehearsal together. The music has been practiced by the individual schools for a few months. This rehearsal was followed by a second one on Monday afternoon. A supper was prepared at the school for all those who wished to eat there.

The concert was open to the public. The experience of playing or singing in a massed group such as the festival group is one that will not be soon forgotten by all those participating.

Band, Chorus To Give Public Concert May 10

The annual spring concert of the Band and Chorus was scheduled for last March 15, but had to be postponed because of bad weather. It will be presented on Sunday, May 10, at 4:15 p. m.

The program will consist of a half-hour band portion, when the band will play selections including their three contest numbers.

THE CHORAL portion will present a few selections from the senior and varsity chorus and from the "Choral-Tones."

The program will conclude with a combined band and chorus presentation of selections from Lerner and Lowe's Broadway Musical, "Brigadoon." Featured vocalists will be Penny Anderson, Sue Romer, and Ken Mazzuca.

Chapter 2

Here's More on Fresh Leebies

By Dan Conrad

Oma and Alan left the fresh leebv which Oma had found at Dan's house. He was going to study its habits over a period of time. These are the characteristics that he discovered:

Fresh leebies are scared away by a great amount of noise. Dan, Oma and Alan were surprised to see that they had remained in Antioch.

THE FRESH LEEBY that Dan had was soft and furry. On further investigation, Dan learned that this fresh leebv was very rare, being a French-Fur-Coated Leebv.

It was bright and cheerful that fateful day when the fresh leebv was found by Oma, but little did they know what was going to happen as a result of that discovery.

Read what happened in the next issue of the Tom-Tom. It's the third and final chapter.

Council Elections May 7, 4 Have Filed for Offices

By Karen Lightsey

A committee consisting of Faye Mann, Judy Maleck, Sharon Dittman, Karen Lightsey, and Terry Ptack are working with Mrs. Jeanette Tulumello in preparation for the annual Student Council election of class officers, class representatives, and council executive officers.

Election will be Thursday, May 7, and the polls will be open from 8 to 4 p. m. Students and faculty members may vote during their free periods, and before or after school so that everyone will be able to vote. A large per cent of the people who complain about the results of an election are those who don't bother to vote.

All students wishing to run for an office have submitted their names to their class sponsors and class meetings will be held at which the candidates will be allowed to make

their campaign speeches.

Four have filed petitions for office. They are Bob Martin for president, Karen Lightsey for vice-president, Sharon Dittman, secretary and George Mantis, treasurer.

STUDENTS WISHING to run for an office on the executive board of Student Council have turned in their petitions, and their names will be submitted to the credentials committee for final approval on the basis of scholarship, cooperation, leadership, dependability and service to the school. The student body will be assembled and at this time the candidates and their campaign managers will give their speeches.

The election board will be composed of students enrolled in government classes and student council members. Every attempt will be made to conduct this election as similarly to a town election as possible.

Local Student Is Sectional FHA Officer

Marie Jasien, Antioch junior, was elected vice-president of Section 21 of the Future Homemakers of America at a recent meeting at Burlington, Ill. This section includes most of the Chicago schools and a large group of other schools in Northern Illinois.

BEING A SECTIONAL officer is not new to Marie as she was section parliamentarian last year.

As vice president of her section, Marie will take over for the president if she is absent at the fall or spring rally or at one of the other

Students Advised To Apply Selves

By Karen Lightsey

Here's hoping that none of you are in the doghouse with parents or teachers since last Wednesday, when report cards were issued.

But if you should happen to be, may I suggest: (a) that you try to cheer up. After all, who wants to study when they have a touch of spring fever? (b) that you have a talk with your teachers and find out where you are having the most trouble, then do something about it, and (c) that you get back on the right track.

Don't forget, there are five more weeks of school this year, and if you get busy, you can finish up this semester with the kind of grades that will satisfy your parents and put your mind at ease, too.

meetings held during the year. Marie will also be in charge of various discussions at the sectional meetings.

Clothes Drive Success

This year's clothing drive, sponsored by the freshman class, was a big success, and the freshies have thanked all who helped in the drive by contributing clothing.
